ACCOQUAT® Quaternaries

Our ACCOQUAT® products are emulsifiers for car wash rinse aids and other car care products. They enable you to provide your customers with the right combination of performance, versatility, and ease of use.

ABITEC's diverse line of emulsifiers offers unique benefits for car rinse aid formulators:

- Excellent Temperature Stability: Freeze-thaw and heat stability are essential for diverse climate situations.
- Reduced Gel or Thickening Risk: As true micro-emulsions, our rinse aids are infinitely dilutable, minimizing the chance of emulsion breakage due to excess water.
- Simplified Formulation: With our Dilute & Shoot EZ-Dry 8000 HF, no additional emulsifiers or mineral seal oil are needed—just add water.
- Lower Co-Solvent Need: Many formulators find that they can reduce co-solvent, like Glycol Ether EB, when using ABITEC's emulsifiers.

Product	Application Benefits
ACCOQUAT® CS 3000 NF	Excellent nonflammable cationic emulsifier
ACCOQUAT® CS 4000	Low VOC, no additional emulsifiers needed
ACCOQUAT® CS 6000 HF	Easy go for all MSO! Create micro-emulsions with exceptional freeze-thaw stability across all MSO systems, delivering a superior balance of water beading, sheeting action, and water-spot reduction. This formula is designed for achieving a protective, high-gloss finish in both manual and automatic car-washing systems.
ACCOQUAT® CS ULTRA NF	Multifunctional climate-stable quat system
ACCOQUAT® EZ-Dry 8000 HF	Dilute and shoot system with excellent water repellency
